

Wardle Storeys (Earby) Limited
Reach Statement - Updated: 20 July 2010

- 1) REACH User
 - a. Wardle Storeys is classed as a downstream user of substances.
 - b. Wardle Storeys does not import substances from outside the European Union.
 - c. The above statements mean that we have no REACH registration obligations.
- 2) REACH Compliance
 - a. Wardle Storeys will formulate to ensure we continue to meet our REACH obligations as required by our customers.
 - b. The criteria for formulation change are:
 - i. Suppliers have highlighted a particular substance has a potential to be added to the SVHC list and are therefore offering alternatives.
 - ii. A substance is on the SVHC list
 - iii. Suppliers decide that Registration of a Substance can not be justified because:
 1. Of cost: the European market size does not justify the cost of registration.
 2. A less hazardous substance substitute is available and hence the ECHA is likely to refuse Registration.
 - iv. In these cases Wardle Storeys will test alternatives to the specifications concerned to ensure the finished product still meets the standards.
 - v. If a particular standard can no longer be met then the customer will be informed.
- 3) REACH Intended Release of Substances from Articles
 - a. Wardle Storeys do not sell articles with intended release of substances from articles.
- 4) Contesting a SVHC substance or non-registration of a Substance
 - a. Wardle Storeys will not continue to use a substance after the:
 - i. SVHC termination date
 - ii. Substance registration date and registration has not been done.
 - b. Customers who wish to contest the ECHA SVHC decision must fund the entire cost of the Appeal including testing and documentary evidence to prove that substance substitution is not viable for their application.
- 5) Registration Completion dates
 - a. 30 Nov 10 for:
 - i. Substances manufactured or imported in quantities \geq 1000 tonnes/ year
 - ii. Hazardous Chemicals: CMR1 & 2, or R50 & R53 manufactured or imported in quantity \geq 1 tonne/ year.
 - b. 31 May 13 for:
 - i. Substances manufactured or imported in quantities between 100 and 1000 tonnes/ year.
 - c. 31 May 18 for:
 - i. Substances manufactured or imported in quantities between 1 tonne and 100 tonnes/ year.

Current List of Substances of Very High Concern

On current Supplier information none of these chemicals are in our formulations:

Description	EC Number	Comment
2,4- Dinitrotoluene	204-450-0	
4,4-Diaminodiphenylmethane	202-974-4	
5-tert-butyl-2,4,6-trinitro-m-xylene	201-329-4	
Acrylamide	201-173-7	
Alkanes, C10-13, chloro	287-476-5	
Anthracene	204-371-1	
Anthracene oil	292-602-7	
Anthracene oil - low	292-604-8	
Anthracene oil, paste	292-603-2	
Anthracene:oil,paste,distn, lights	295-278-5	
Anthracene:oil,paste,fraction	295-275-9	
Benzyl butyl phthalate	201-622-7	
BIS (2-ethyl(hexyl)phthalate)	204-211-0	
Bis(tributyltin)oxide	200-268-0	
Coal tar pitch, high temperature	266-028-2	
Cobalt dichloride	231-589-4	
Diarsenic pentaoxide	215-116-9	
Diarsenic Trioxide	215-481-4	
Dibutyl phthalate	201-557-4	
Diisobutyl phthalate	201-553-2	
Dimethylfumarate (DMF)	210-849-0	
HBCDD major diastereoisomers identified	221-695-9	
Hexabromocyclododecane	247-148-4	
Lead chromate	231-846-0	
Lead chromate molybdate sulfate red	235-759-9	
Lead hydrogen arsenate	232-064-2	
Lead suitochromate yellow	215-693-7	
Sodium dichromate / dihydrate	234-190-3	
Triethyl arsenate	427-700-2	
Tris(chlorethyl) phosphate	204-118-5	
Zirconia aluminosilicate refra cera fibr	650-017-00-8	
Ammonium Dichromate	232-143-1	Substances added 18 June 10 No supplier concerns yet received
Boric Acid	233-139-2	
Boric Acid 2	234-343-4	
Disodium tetraborate, anhydrous	215-540-4	
Potassium Chromate	232-140-5	
Potassium Dichromate	231-906-6	
Sodium Chromate	231-889-5	
Tetraboron disodium heptaoxide, hydrate	235-541-3	
Trichloroethylene	201-167-4
